

MEMORANDUM FOR: GENERAL CABELL

The Assistant Director for Personnel, [REDACTED], the Deputy Director of Security, [REDACTED], and the Acting General Counsel, [REDACTED] have concurred in the attached draft of Regulation "Separations - Employment Review Board," with the following reservations:

- a. [REDACTED] desires to record his belief that the Regulation should provide that in every case the Employment Review Board will advise the Director of Central Intelligence on the just and equitable exercise of this authority. This would, of course, be in contradiction to the Regulation as now drafted which says: "The Director might as well be the Recording Secretary, whereas the General Counsel has heretofore been Recording Secretary. The Director of Security feels that the Assistant Director for Personnel should not be represented at ERB's where the factors involved are "security" as opposed to "general suitability." I am inclined to agree with Security on this.

Request guidance on the three controversial points and any other comments prior to final coordination and publication.
